

Executive Report

BGP before/after validation with operator-focused findings

MW ID: MW_DEMO_BGP_001

WARNING

REPORT CONTEXT

PROTOCOL BGP	STAGES before -> after	DEVICES 2	GENERATED 2026-09-06 16:10 UTC
-----------------	---------------------------	--------------	-----------------------------------

Executive Summary

Fast operational view of the maintenance-window outcome.

TOTAL PEERS 7	WARNING PEERS 6	UNHEALTHY PEERS 1
WARNING FAMILIES 3	SESSION RESTARTS 1	PREFIX DELTAS 1

MODULE STATUS

BGP State	PASS
BGP Session Health	WARNING

PEER HEALTH DISTRIBUTION

Pass	0
Warning	6
Unhealthy	1
Failed	0
Not evaluated	0

Executive interpretation

State validation: PASS. Session health: WARNING. Detected 1 session restart(s), 6 warning peer(s), 1 persistent unhealthy peer(s), and 3 warning family/table result(s).

DEVICE EXECUTIVE SUMMARY

Per-device outcome and operational findings

DEVICE	OVERALL	STATE	HEALTH	SESSIONS	PEERS W/U	FAM W/T	RESTARTS
192.0.2.10	WARNING	PASS	WARNING	4->4	3/1	2/4	1
192.0.2.11	WARNING	PASS	WARNING	3->3	3/0	1/4	0

Finding distribution

Counts are factual findings, not a weighted risk score.

Session restarts	1
Uptime resets	0
Flap count increases	1
Flap count resets	1
New families	1
Missing families	1
Persistent unhealthy	1
Prefix deltas	1

Evidence completeness

192.0.2.10: pyez -> pyez; 192.0.2.11: pyez -> pyez

OPERATIONAL ATTENTION

Peers and findings that deserve operator review

DEVICE	PEER	RESULT	STATE	WHY IT MATTERS
192.0.2.10	198.51.100.1	WARNING	Established -> Established	session restart detected
192.0.2.10	198.51.100.2	UNHEALTHY	Idle -> Idle	persistent unhealthy peer
192.0.2.10	198.51.100.3	WARNING	Established -> Established	1 warning family/table(s)
192.0.2.10	198.51.100.4	WARNING	Established -> Established	1 warning family/table(s)
192.0.2.11	203.0.113.1	WARNING	Established -> Established	1 warning family/table(s)
192.0.2.11	203.0.113.2	WARNING	Established -> Established	flap count increased
192.0.2.11	203.0.113.3	WARNING	Established -> Established	flap count reset

Finding inventory

Complete technical evidence remains available in Detail TXT and JSON.

flap count increased	1
flap count reset	1
missing family after	1
new family after	1
persistent unhealthy peer	1
prefix delta	1
session restart detected	1

Report usage

This PDF is designed for executive and operational review. It intentionally summarizes repetitive prefix-level detail. Use the Summary TXT for a structured complete warning list, the Detail TXT for peer/family evidence, and JSON for machine-readable audit evidence.
